FULL-STACK SOFTWARE ENGINEER

The constant development required as a software engineer suits my aptitude for learning. I bring a diverse set of skills, including experience in the accounting industry, a fixed-wing private pilot license, musical knowledge, a sense of adventure, and an eye for design. I'm the multitool you want in your back pocket.

TECHNICAL SKILLS

JavaScript, React, Redux, Ruby, Ruby on Rails, SQL, PostgreSQL, OOP, HTML/DOM, CSS, JSON, Python, Tailwind CSS, Next.js, Material UI, Git, Heroku, Render, Postman, REST API, MVC Architecture, wireframes, Excel, Visio, Tableau

TECHNICAL PROJECTS

Ski Colorado - Github
Organize your ski trips with this interactive map featuring resort details, in-app bookmarking tools, and user reviews
- Developed RESTful full stack application deployed through Render
- Utilized JS React frontend with MUI style components and a Rails API backend
- User authentication/authorization with bcrypt gem and session cookies middleware
- Leveraged Mapbox interactive map
- Implemented useContext to globally manage state

Book Club - Github
A community space to share and discuss favorite books
- Full stack application with JS React frontend, MUI style components, and Rails API backend
- Features user authentication/authorization utilizing session cookies middleware
- Demonstrates MVC architecture and the use of Active Record for Object-Relational Mapping

Portfolio - Github
Personal portfolio site
- Single-page application with JS React frontend
- Next.js using App Router
- Tailwind CSS framework

EXPERIENCE

Bradshaw & Associates, PLLC   Colorado Springs, CO
Staff Accountant   06/2021 - 05/2022
- Manage accounts for approximately eight bookkeeping and twenty payroll clients
- Bookkeeping: monthly bank reconciliation, journal entries, accounts receivable and accounts payable management and reconciliation, prepare financial statements
- Prepare and file quarterly payroll taxes and city and state sales taxes

The Broadmoor   Colorado Springs, CO
Income Auditor   10/2020 - 02/2021
- Track gratuities and service charge postings from POS to GL for nine restaurants, researching variances in order to properly audit and distribute staff gratuities while ensuring minimum wage requirements
- Design/program and maintain spreadsheets for each department's gratuity and service charge distributions
- Reconcile various general ledger accounts and provide monthly reports to Finance
